

CONTINUING EDUCATION

Crossing the Divides: Case Conceptualization and Treatment Across Five Models January 26-27, 2023 (2 half-days, from 12:00-3:30 p.m. Eastern), Online via Zoom

Nellie Health, Inc. is approved by the Canadian Psychological Association (CPA) to offer continuing education for Canadian psychologists. Nellie Health, Inc. maintains responsibility for the program. The program offers a total of 6.00 contact hours (3.00 hours per day), with full attendance required. Partial CE credit is not offered.

NOTE: For other related healthcare fields, it is the responsibility of attendees to determine if continuing education credit offered by Nellie Health Inc. meets the regulations of their licensing/certification board.

Course Completion: To qualify to receive continuing education credit, attendees must participate in the CE activity in its entirety (attendance will be managed by training team), and complete the CE materials. Post-training, an attendee is required to complete 15 comprehension questions, achieving a minimum of 80% in order to receive CE credit. CE verification will be emailed to attendees following the workshop.

Questions: If you have questions regarding continuing education, the program, instructors, speakers' bios, please email workshops@nelliehealth.com.

Learning Objectives:

1. Understand the importance of case conceptualization for informing and personalizing therapy to meet the needs of individual clients.
2. Understand important assessment questions and information that's important to attend to in the early phases of therapy in order to develop a comprehensive and useful case conceptualization.
3. Understand how expert clinicians conceptualize case material from a variety of different theoretical orientations/treatment modalities (Cognitive Behavioural Therapy, Dialectical Behaviour Therapy, Integrative Psychotherapy, Family Systems, and Psychodynamic Psychotherapy).
4. Practice conceptualizing case material using various theoretical orientations/treatment modalities.
5. Learn to identify appropriate interventions that would follow from conceptualizing a case based on each orientation.
6. Reflect on integration of different therapy models and interventions for cases in your current practice.

Intended Audience: Healthcare practitioners and graduate students in psychology, social work, nursing, counselling, medicine, and related fields.

Skill Level: Beginning, Intermediate, Advanced.

ACA/ADA: For accommodations on the basis of disability, please contact us at workshops@nelliehealth.com.

IMPORTANT NOTE: The CPA's approval of an individual, group, or organization as a CE Sponsor or Provider is restricted to the activities described in the approved application or annual report form. The CPA's approval does not extend to any other CE activity the Sponsor or Provider might offer. In granting its approval, the CPA assumes no legal or financial obligations to Sponsors, Providers, or to those individuals who might participate in a Sponsor or Provider's CE activities or programs. Further, responsibility for the content, provision, and delivery of any CE activity approved by the CPA remains that of the CE Sponsor or Provider. The CPA disclaims all legal liability associated with the content, provision, and delivery of the approved CE activity.
